## \*How to Dispose of Domestic Garbage at Collection Points

#### For First-timers

Garbage collection points and management rules are determined by self-governing associations as well as by neighborhood residents.

If you have just moved into Ashiya, please make sure to ask neighborhood residents about how to dispose of garbage.

- Garbage taken out on dates and hours other than the assigned ones are not collected.
- Please refer to the Garbage Collection Calendar on page 7 for dates and hours for disposal.
- Please sort out and dispose of garbage according to type.
- Commercial waste generated in companies and offices cannot be collected by Ashiya City. Please refer to the explanation for "Commercial waste" on page 11.

#### Follow the rules when taking out garbage at collection points.

### STOP ILLEGAL DUMPING!

Taking out garbage without following the rules is deemed as "ILLEGAL DUMPING".

"The Waste Management and Public Cleansing Law, Article 25" states that, "Any person who falls under any of the categories of illegal dumping shall be punished by imprisonment with hard labor for not more than five years or a fine of not more than 10 million yen, or both."

### \*家庭ごみステーションへのごみの出し方

#### ~How to Prevent Crows from Scavenging Garbage~

#### 1. Protect with mesh crow net

- The mesh net should be fine enough not to allow crows to peck and break open garbage bags. Make sure the net covers and wraps up all the garbage, leaving nothing sticking out.
- You can place stones on the net to protect it from being blown away by the wind or by crows prying their beaks beneath the edges of the net.

#### 2. Hide food/kitchen garbage

Crows have good eyes and usually find their food by sight.

Place food/kitchen garbage underneath in the middle of the pile of garbage to make it difficult to spot.

#### 3. Take out garbage only on designated days

If you take out garbage either on the day before or after collection, crows will have a chance to tear into it.

Follow the specific rules for each neighborhood - collection days and hours, sorting out, and disposing of at designated collection points.

#### What you should not do

- Leave a gap in the net.
- Leave trash bags sticking out of the net.
- Leave trash bags outside the netting.

#### ~カラスにごみをあらされないために~

#### 1 カラスよけネットを使う

- ●ネットの網首は、カラスのくちばしが選らないくらいの細かいものが良いです。ごみをネットの下にきちんと入れて、ごみ袋がはみ出さないようにごみ袋全体を包み込むように覆いましょう。
- ●ネットの一部に石をのせるなどして、ネットが風などでめくれたり、カラスにネットの下から頭を入れられないようにしましょう。

#### 2 生ごみをかくす

カラスは自が良く、おもに視覚でエサを探します。 カラスが見つけにくいようにするために、ごみ袋のまんなかに生ごみを入れてかくしましょう。

#### 3 ごみを出す日を守る

前の首や 回収したあとにごみを出してしまうと、カラスにあらされてしまいます。 ごみ出しは、地域ごとに決められた自時、決められた方法で、決められた家庭ごみステーションに出しましょう。

#### 悪い仮

- ●ネットにすき間がある。
- ●ネットからごみ袋がはみ出ている。
- ●ネットの外にごみ袋を置いている。

sure to separate them.

◆There is garbage that cannot be collected or handled by Ashiva City. Please refer to page 11.

#### It is prohibited to remove recyclable resources from collection points

Citizens are asked to sort out garbage before disposing it. There have been cases of people taking away garbage. As recyclables are valuable for the city as well as for its citizens, Ashiya City strictly prohibits removing them. Taking away of recyclables lowers the awareness of the need to sort out garbage, and has a negative influence on the efforts to reduce waste and promote recycling. Please see the city website for more details.
